Disregard, just read the thread. I can do 1115 today while I'm driving downtown. Off tomorrow

Thanks, Mike

Are you available today or tomorrow for a conference call?

These are the times I'm available:

Today- 11-12 or 3pm

Tomorrow: 10-1

Please let me know if any of these times work for the 3 of you?

Thanks for the insights. Paul spoke with Tony at Mariposa today, who said the situation is beyond the scope of their contract.

Could we do a quick call to discuss? I'm wondering if we can collectively remedy the current situation and perhaps the BID can play a key role in preventing its reoccurrence.

Hi Tara and Claudia,

This is an issue that tends to pop up and run in cycles. Many of these individuals are those who no longer stay at 3rd/Rose. The gated area is storage for either BOS or B&H, can't remember. I'll find out. The transients cut off the city lock, place their own and then use it for their own purposes. The main issue is the inability to adequately secure the gate long term and the issues then spill out onto the ramps. I'd talk to Tony Valenzuela from Mariposa (626-252-4210) and he might be able to point you in the right direction.

Thanks, Mike

Hi Tara,

This happened a couple of months back. Taylor and I were actually at the site and observed similar activity. We reached out to LAPD Hope who resolved the issues pretty quickly. I am headed out to that area in about an hour and will take a look.

I will follow up with you!

Claudia

Dear Claudia:

It's been awhile since we last spoke, but I wanted to reach out and ask for your help with a dangerous situation on City-owned property.

The BID has been operating since May 14th, and our clean and safe services have been very helpful in improving or eradicating many unsightly and unsafe conditions in the BID ROW. There is a situation we're unable to address for which we could really use your help.

We're seeing a consistent problem that is located in the midst of

City-owned property. It's the LADOT Lot 731 (operated by MPI.) It lies between N and S Venice Blvds - its western edge is along Pacific. In the midst of the lot, there are some pathways leading down to the canals/dock and a locked connecting area that appears to have been taken over or "privatized" with what appear to be non-City locks and occupied by non-City personnel and non-City possessions. Trash, urination, feces and more appears to be reaching the canal and supporting a lively ecosystem in the water. There are encampments on the ramps, in the dock area, and within a locked connecting tunnel in which anything could be transpiring. I've attached some photos here and will send some more in separate emails. I've been told it was even worse a month ago.

Cleaning this up and securing it appears to be a multi-department issue to me. So we'd like to open a dialogue with you about:

- 1) resolving this very dangerous and unsanitary issue ASAP
- 2) how we can prevent it from reoccurring in the future

Warmest regards,

Tara
